

“Timeless landscape”

- a magical experience!

Karl Seglem, goat horn, t.sax, voice, poetry | Jorunn Barane, voice | Jonas H. Sjøvaag, tombak & electronics

“A concert, a performance, a journey. Waves of wordless sound finding harmony and resonance with a voice that in one moment is loud and horative, and in the next a poetic whisper. Sounds and words, pictures painted in the minds and hearts of those who are listening. It just might open up something new in each of us”
